

## **DECLARATION OF SAFETY, QUALITY AND ENVIRONMENT POLICY**

**SAFETY, ENVIRONMENT AND QUALITY POLICY of ALMACENES Y ESPACIOS INDUSTRIALES, SL**, a company dedicated to the design and management of works and projects of warehouses, warehouses and logistics equipment, is focused on achieving customer satisfaction combined with environmental preservation and prevention of pollution within our possibilities and with the perspective of the life cycle.

To achieve these objectives, the operation of the company is based on:

- *Think before acting and plan our actions remembering that we work as a team.*
- *Permanent and direct contact with the client.*
- *The innovation and improvement of our engineering processes and the resulting products with the aim of simplifying and modulating them.*
- *Carry out designs that facilitate its manufacture and later the assembly to improve both the resulting product and the profitability of the company.*
- *Delivery to the customer of the product according to the contract established in each case.*
- *Control the consumption of natural resources and the generation of waste resulting from our activity or indirectly through our subcontractors for the prevention of pollution.*
- *Include within our projects, whenever possible, improvements in component products or design variables that allow a lower impact on the environment and safety of final product.*
- *Provide safe and healthy conditions, in order to remove dangers and reduce labor risks, improving HS@W management and its performance, preventing like this, any unsafe act whose consequences are not acceptable to the worker's health.*
- *Encourage participation of workers, in order to improve safety and health in workplace, demanding and setting an example in the compliance with the preventive measures adopted in the company.*
- *Carry out work involving all personnel in the compliance with applicable legal requirements, or other requirements that may be demanded from them, from the point of view of quality, as well as, for the environment respect and safety*

To achieve all this, **ALMACENES Y ESPACIOS INDUSTRIALES, S.L.** has established the following actions:

- *Define, elaborate, disseminate and implement the Management and Procedures Manual, guaranteeing, at all levels, that the activities are carried out in accordance with this Policy.*
- *Ensure that the entire system is understood, implemented and maintained at all levels of the organization in the degree and scope that is applicable.*
- *Ensure the environmental awareness of our staff and ensure that we promote it, within our possibilities, between suppliers and customers as a commitment to environmental improvement.*
- *Ensure at all times compliance with regulations or other requirements arising from our activity or agreements with customers, public administration, the company's environment or our own. In particular with the regulation 305/5001 and EN1090-1: 2009 + A1: 2011*
- *Monitor the compliance and effectiveness of the Management System by periodically reviewing it and analyzing the results of internal audits and the definition of indicators and objectives*
- *Achieve a continuous improvement of the Quality and the Environment, creating in a gradual way and as far as possible, indicators and objectives, for different fundamental aspects of the quality of the service provided and the environment.*

- *To obtain a continuous improvement of Quality, Environment and Health and Safety of workers and stakeholders, gradually creating, as far as possible, indicators and objectives.*
